WORK EXPERIENCE

West Big Data Hub   **June 2022 - Present**
Data Science Intern   *San Diego, CA*
- Responsible for designing and developing the organization repository website from the ground up.
- Developed frontend in React and backend in Django, using a test-driven development workflow
- Developed and managed ETL pipeline for user-uploaded repositories
- Gained significant experience in Git, Selenium testing, and JavaScript during the development process

Mathnasium of Milpitas   **September 2018 – May 2019**
Mathnasium Instructor   *Milpitas, CA*
- Personally tutored over 30 students in various subjects of mathematics up to univariate calculus
- Periodically assessed student proficiencies and developed tailored learning plans based on the results

Gyrfalcon Technology Inc.   **June 2018 – September 2018**
Machine Learning Intern   *Milpitas, CA*
- Proofread and revised multiple company patent applications prior to submission
- Trained several convolutional neural networks for inference testing (Jupyter, Python, TensorFlow)

PROJECTS

Analysis of CSGOCrash Results
- Wrote Jupyter Notebook report analyzing results from CSGOCrash, an online gambling minigame.
- Gained experience with data visualization using Matplotlib and Seaborn
- Found the gambling results were drawn from a Type I Pareto distribution, rounded down to the hundredths
- Full report, which I am very proud of and would recommend reading:
  https://github.com/agctute/csgocrashedge

Envirosense
- Developed environment monitoring sensor system (Firebase cloud storage, Android Studio)
- Won 3rd-place in the Northrop Grumman Challenge

RELEVENT COURSEWORK

- **Real Analysis I, II** – Math 140A + Math 140B
- **Linear and Nonlinear Optimization** – Math 171A + Math 171B
- **Statistical Methods and Enumerative Combinatorics** – Math 183 + Math 184
- **Hidden Data in Random Matrices** – Math 182

EDUCATION

University of California San Diego   **June 2023**
B.S. in Mathematics – Emphasis in Computer Science   *La Jolla, CA*
GPA: 3.55

SKILLS & INTERESTS

- **Programming Languages:** Python (Fluent), C++ (Proficient), SQL (Proficient), Java (Proficient)
- **Skills:** MATLAB (Proficient), Test-driven Development, Googling, Using Stackoverflow, Mandarin (Fluent)
